Built first. Backed next.

Shane Neman is a Miami-based serial entrepreneur, venture capitalist, real estate investor, and author. An NYU computer science graduate who left medical school, he bootstrapped JoonBug and EZ Texting after his first startup failed. Both businesses were acquired; EZ Texting reached 50K+ SMB customers by 2012 before its 2013 acquisition by CallFire. He established his family office in 2013 and launched Neman Ventures in 2018. Investments span frontier technology (SandboxAQ), consumer brands (AG1), real estate and operating businesses (Pacific Park at the Santa Monica Pier).

THE INVESTMENT LENS / TWO SIDES. ONE BARBELL.

What's becoming possible.

AI, robotics, quantum and deep science: Figure AI (backed in 2023) and SandboxAQ. Global humanoid robotics VC funding grew from $556M in 2023 to $11B in 2026 YTD through October 6. Source: Dealroom

What stays tangible.

Consumer brands, real estate and physical businesses he believes are less exposed to AI disruption, from infant nutrition to Pacific Park at the Santa Monica Pier.

DISCLOSURES/ FINANCIAL FIGURES AS OF NOVEMBER 2ND, 2026

Selected holdings are illustrative, not recommendations, an investment offer, or advice. Private investments are illiquid, can lose all value, and involve a high level of risk. Past performance does not predict future results, it should not be assumed an investment in the companies presented was or will be profitable. Figures are unaudited estimates. Aggregate portfolio value reflects unrealized values across all Neman Ventures-sponsored SPVs. Neman Ventures portfolio represents all of the Neman Ventures portfolio companies, while Shane Neman's personal investments includes a representative selection of those held personally through the Neman Family Office.
